Business Need

NorthWest Tech Inc (a home technology supplier) is building a website that will provide customers with a wide range of home technology integration products. The website will show an extensive inventory alongside information about "**how to**" use a specific product.

Description

Week 1

1_Brain Storming

2_ Created a Statemen of Work

3_Create a Board on Jira

4_Added Tasks on Jira

5_ Added teammate as collaborator

6_ Built website logo from Squarespace

7_Created a website on Canva. Downloaded/ updated index.html and styles.ccs files from

   GitHub Link:

[GitHub - kephasitati/Caf--static-website: Challenge Lab   2: Creating a Static Website for a Café on Amazon   S3](#)

  8_Created an AWS S3 bucket to host "Northwesttechinc" static
   Website

  9_Uploaded the website page to AWS S3 bucket

10_Refined/ debug images and codes

11_Created a GitHub Repository and uploaded the files bellow to GitHub:

   (About Us, Contact, Products, Products2, Home Page, Logo, index.html, and styles.ccs)

Strategic Plan

ℹ️ **NorthWest Tech Inc** will host the website using Amazon S3 bucket. The model website is the first step toward building a user friendly and inclusive online experience for North West Tech Inc digital platform.

The site will integrate unique products and services to enhance, make everyday life more delightful.

In addition, the site will be highly available and provide unparallel customer service.

.
